Math

Chapter 9 and 10: Measurement

During these two chapters your student will learn concepts of measurement. They will be able to measure length, area, and temperature. They will also be able to measure capacity, weight, volume, and time.

Reminders:

- Math bench tests will occur at the beginning of this month, so practice those math facts!

GOAL in 5 Minutes:

95/100 addition

95/100 subtraction

70/100 multiplication
